

We're all in this together

A challenge like Coronavirus means vulnerable children and young people may need our support now more than ever and we remain confident we can deliver our range of services in new and different ways.

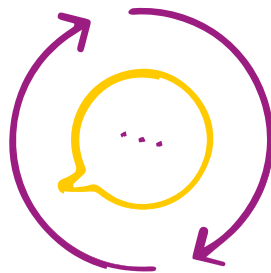

As a national rights based charity, our teams are well placed and experienced in remote and mobile working.

Our Helpline

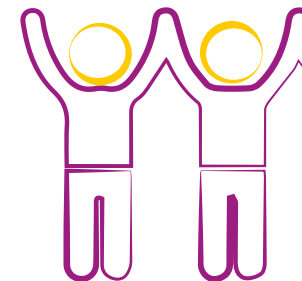

Update on our services

At the moment we cannot meet anyone physically in person but we will do everything in our power to make contact safely via phone, email, video and other messaging apps to ensure children's rights remain upheld and that their voices are heard.

Message to children and young people

We are always on your side. We are here to protect your right to be listened to and taken seriously, and during Covid-19 we are still able to support you.

Message to carers, social workers and families

Children and young people in care **have the right** to an advocate to help them voice their views, wishes and feelings. Help us to spread the word and give them the support they need.
